GrowWithClass

A NOTE YOU CAN SHARE

A short note for your child's teacher

Hello. My name is Calvin Mims. I run GrowWithClass, a small home practice program for grades 1 to 3. A parent in your class may share this page with you.

Here is what the program does, and what it does not do.

- GrowWithClass follows the topics and methods the class is teaching that week.
- It never copies the teacher's worksheets. I write new practice from the lesson goals the family sends me.
- I ask the parent how the class teaches each method, so home practice matches school.
- The teacher stays in charge of class. I am not a replacement for school, and I do not grade official work.
- GrowWithClass is not affiliated with any school or district.

If a method on a page should change, the parent can tell me. I will fix the page. Families can also write me at growwithclass@gmail.com.

Thank you for the work you already do with this class. I am here only to help a family support that work at home.
